PROPOSED CHANGE IN SHOW CATEGORIES

Four of our members from the south part of the state proposed some new categories for our shows to help even out the classes. They would like to see the Commercial Class eliminated for lack of interest and competition and they would like to create another class called "Novice". Here is the way they suggest:

1 thru 25 varieties - Novice
26 thru 50 varieties - Amateur
51 thru 100 varieties - Collector
100 and up varieties - Open

The commercial people would show in the new open class on their old entry cards. This would still let the public know who sold plants.

There was no action taken on the proposal. It was offered as a suggestion and the members were asked to think about it and notify the Show and Judging Rules committee chairman, Mr. Eric Golby, what they thought of the idea.

It would seem that this plan would tend to split the large collector section as it is now, and separate the men from the boys so to speak. Let's give this plan some rather hard study and talk about it and see if we like it.

Today's penny isn't entirely worthless. It still makes a pretty good emergency screwdriver.

One little boy to another as they watch an escalator going down: "What happens when the basement gets full of steps?"
